If you are looking for a romantic dinner or something a little more along the lines of fine dining you MUST make reservations for The Ranch Restaurant & Saloon. Don't be fooled by the executive office building they reside in, for this restaurant features some of the finest American cuisines I have ever tasted. The seasonally driven menu items are derived from quality made-from-scratch ingredients and produce picked from their very own farm. Every single item I tried on the menu was truly exceptional from the ceviche to the sea bass and even my husband's petite filet (and I'm not a huge meat eater). The staff at The Ranch also know how to treat a guest, they go above and beyond when it comes to service. The Ranch Restaurant also houses a large selection of world-class international wines to ensure every bite can be paired with the perfect glass of wine.

Make sure you save plenty of room for dessert while you are there. You won't want to miss their PB & J Milk Chocolate Bar with homemade caramelized banana ice cream (pictured below) or their incredible Hand-Crafted Honeycrisp Apple Crostada. After dinner head next door to the Saloon and try your hand at two-step country line dancing or sit back and enjoy the live music.
